Join us on September 8th in the G01 Biotechnology Building from 4-5pm

Learn about the GE Global Research Center in Niskayuna, NY while enjoying some appetizers and beverages. Speak to our researchers about full-time graduate level job opportunities and internships in the fields of advanced software & computing, power electronics, materials science, CFD, combustion, advanced controls algorithms, turbomachinery, power generation and more.

At GE Global Research we redefine what’s possible, finding answers to some of the world’s toughest challenges in the energy, aviation, oil & gas, healthcare and transportation industries.
