

CONTINUING EDUCATION FOR STUDENTS, ENGINEERS AND PROFESSIONALS

## SPRING COURSE (ONLINE)

# LEAN SIX SIGMA GREEN BELT - HEALTHCARE

**JAN 28**

### ABOUT THE INSTRUCTOR

Dr. Mohammad T. Khasawneh is a professor and Chair in Systems Science & Industrial Engineering Department. His research areas of interest are in human factors/ergonomics and modeling of healthcare delivery systems.

**Spring Session: Self-paced Online Training**  
**January 28th – March 31st, 2019**

### ABOUT THE COURSE

This course emphasizes why the implementation of Lean Six Sigma is vital to the continuous improvement of hospital operations, and especially for healthcare delivery systems. Several healthcare case studies and applications of Lean Six Sigma concepts will be presented, educational games and group activities will be used to enhance learning. This course is open to healthcare executives, directors, physicians, nurses, hospital and office administrative staff and anyone seeking Lean Six Sigma Green Belt certification.
